Sustained, inclusive and equitable economic growth for poverty eradication and achievement of the Millennium Development Goals

The General Assembly,

Recalling the High-level Plenary Meeting of the sixty-fifth session of the General Assembly on the Millennium Development Goals and its outcome,[1]

Stressing that the promotion of sustained, inclusive and equitable economic growth is necessary for accelerating progress towards achieving the Millennium Development Goals, as well as for promoting sustainable development, but is not sufficient, and that growth should enable everyone, in particular the poor, to participate in and benefit from economic opportunities and should lead to job creation and income opportunities, and be complemented by effective social policies,

Recognizing that national efforts in this regard should be complemented by an enabling international environment,

[1] See resolution 65/1.
